

Program

Written by Administrator

Friday, 10 October 2008 15:21 - Last Updated Wednesday, 07 July 2010 01:05

The program of ICMMES-2010 can be view through the following link:

<https://www.conftool.net/icmmes2010/index.php?page=browseSessions&presentations=show>

The invited speakers of ICMMES-2010 include:

- Prof. **Pietro Asinari**, Politecnico di Torino, Italy
- Prof. **Francois Dubois**, University Paris-Sud 11 (Orsay) and CNAM, France
- Dr. **Irina Ginzburg**, CEMAGREF, France
- Prof. **Zhaoli Guo**, Huazhong University of Science and Technology, China
- Prof. **Takaji Inamuro**, Kyoto University, Japan
- Prof. **Taku Ohwada**, Kyoto University, Japan
- Prof. **J. R. Anthony Pearson**, Cambridge University, UK
- Prof. **Patrick Tabeling**, ESPCI, Paris, France
- Dr. **Alexander Vikhansky**, Queen Mary University of London, UK

ICMMES-2010 will offer short courses given by:

- Prof. [Pietro Asinari](#) , Politecnico di Torino, Italy
Multi-Species Lattice Boltzmann Models and Applications
- Dr. [Paul J. Dellar](#) , Mathematical Institute, Oxford University, UK
Lattice Boltzmann Methods for Magnetohydrodynamics and Electromagnetism
- Prof. [Jos Derksen](#) , University of Alberta, Canada
Large-Eddy Simulations and Immersed Boundary Methods in an LB Context
- Prof. [Li-Shi Luo](#) , Old Dominion University, USA
A Survey of Recent Developments of Lattice Boltzmann Method
